—Matt Stadlman, who lives on the Rowlett ranch, west of town, is reported dangerously sick with a complication of diseases, and at this time, not much hopes are entertained for his recovery.

—Allen Nottley received a car load of Illinois soft coal, Monday, and sold it out in short order. This makes a total of three cars of coal sold here in the past week, and it all went direct to the consumer.

—Ben Pete Hunt, R. S. Hunt and Link Hunt, who were down in the Ozark country, taking a look at the country, returned the first of the week, without making any purchases. They say that country is a little too rocky to suit them.

Spillman, west of town, for several days, left the latter part of last week for Nebraska City, where she expected to visit with relatives for some time, and then go to California to spend the winter. Mrs. Brown's home is in Ottumwa, Iowa.

—We are told that our old friend, E. E. Boyd, has invested in a brand new "Tin Willie" Ford, and he with his family are sure enjoying the new car. One thing, we and a few of his neighbors would like to know is why he placed two extra good hales of hay in his garage. It has been said that Brother Boyd refused an extra good price for those two hales of hay.

—Elder O. W. Okerlund, representing the Reorganized Church of Jesus Christ of the Latter Day Saints, closed his series of meetings at the W. O. W. hall, last Friday evening. On account of the bad weather and roads, the attendance did not justify continuing the meetings. At some future time, the Elder expects to return with a tent and hopes for better success.

—John Coughlin, president of the Bigelow Community Club, says the club is not dead by a long shot, and

that a meeting will be called at an early date, and that several important propositions will be brought to the attention of the club. This is an organization that should have the hearty support of every citizen in this neighborhood, and we hope to see a large crowd attend the next meeting.

—We notice by The Fort Morgan, Colo., Evening Times, where, one afternoon, last week, our old friend, P. E. Lunday, better known by his many friends in this neighborhood as "Pack," and who has received the nick-name of "Dad" in Fort Morgan, was the guest of honor and treated to a ride in a lovely beechwood wheelbarrow, from the Times corner to the Burlington depot and return. Stated "Pack," a member of the G. O. P., was the source of locomotion, who was just paying off an election bet that he had made with our old friend, "Pack," unwisely. Stay with them, Pack, it is another four years of prosperity, and don't you forget it.

—Those who did not attend the basket ball game between Bigelow and Mound City, last Friday night, missed an exciting game. The game was one of the fastest ever played on the Mound City court, as may be seen by the score of 12 to 7. Bigelow retained the lead until about the middle of the second half, when Mound City took the lead, which they held until the close of the game. The final score was 32 to 29. The attendance was very good: a number of Bigelow boosters were there, and we are certainly proud of the fight the boys put up. The following was the line-up for Bigelow: Hayes, C.; Davis, L. G.; Chuning, R. G.; McKee, R. F., and Couts, L. F.

—The school board held their regular meeting at the school house, last Monday evening, with all teachers present or tardy during the school month just closed in the first grade were: Roy Larkins, Claude Hunt, Lavern Hunt, Floyd Hise and Dale Rosling; second grade, Vera Davis, James Couts and Josephine Jessup; third grade, Edith Walker; Miss Tibbels' department were, Della Couts, Vera Gresham, Georgia Kinney, Lucile Jessup, Marian Maier, Gertrude Maier, Georgia Poynter, Lela Davis, Ralph Walker, Dorothy Jessup, Anna Couts, Lamont Osborn, Oscar Adams and Madison Overly; seventh grade, Mynard Osborn, Glen Walker, Joe Poynter, Katherine McKee, Sarah Margaret McKee and Maud Davis; eighth grade, Goldie Couts, Dorothy Bridgman, Mary Overly and Wilson Jackson. During the month there were quite a number of parents to visit the school, and we hope to see more visitors next month and a larger honor roll.

—Next Saturday evening, Bigelow Camp will elect their officers for the ensuing year, and every member in this vicinity should make a sacrifice to be present, as this is the most important meeting of the year, so to do and that a first-class set of officers may be elected. The Camp is badly in need of a set of officers, who will take an interest in the work, and who will attend lodge regularly. As a matter of fact, if the officers of an organization are not on hand at the

proper time, there is no encouragement for the members to come out, and sit around awaiting the pleasure of the officers, who may not come at all. The Camp has a good membership, about 235 members in good standing, owns their own hall, and are out of debt, and there is no reason why the members should not spend a social hour or two at the meetings every Saturday evening, where ideas may be exchanged, and a better fraternal spirit be manifested by all members. Come out, Sovereigns, and assist in electing officers who will perform the duties of their respective stations, and not elect some Sovereign to an office just because he happens to be a good fellow, but because he is the right kind of a man for the office, and will do the business. It is next Saturday evening, Sovereigns, and don't forget the place.

## Wheat Prospects Slim in Idlewild District.

R. Lippold, one of the leading farmers of Minton township, near the Idlewild school, was in Oregon, Wednesday of this week, interviewing Collector Alkire, and transacting other business. We were more than surprised when he informed us that the prospect for wheat was not a bit good, having been informed by a number that the prospect was never better. He tells us that he and his sons have in about 500 acres and that it will not make more than a fourth of a stand—the berry never sprouted, at all. He says he made a test of his wheat and every berry sprouted, but when sowed it failed to sprout, and in digging down found the grain rotted. He does not know what to attribute this to, unless some condition of the soil existing, sour, or some other reason that he cannot explain.
